Contents Volume 104, 2001

Research papers

Application of X-ray microanalysis to study the distribution of organic waste in soil
X. Sort and J.M. Alcañiz 1

Influence of termites on runoff and infiltration: quantification and analysis
J. Léonard and J.L. Rajot 17

A direct link between forest vegetation type and soil organic matter composition
S.A. Quideau, O.A. Chadwick, A. Benesi, R.C. Graham and M.A. Anderson 41

A comparison of morphological data and physical measurements of pore structures in milled peat stockpiles
S.J. Mooney, N.M. Holden, S.M. Ward and J.F. Collins 61

Sulfate sorption in nonvolcanic Andisols and Andic soils from Galicia, NW Spain
M. Camps Arbestain, M.E. Barreal and F. Macías 75

Soil–vegetation relationship in base-deficient premontane moist forest–savanna mosaics of the Venezuelan Guayana
H. Fölster, N. Dezzeo and J.A. Priess 95

Evolution of Chernozems in the Northern Caucasus, Russia during the second half of the Holocene: carbonate status of paleosols as a tool for paleoenvironmental reconstruction
O.S. Khokhlova, S.N. Sedov, A.A. Golyeva and A.A. Khokhlov 115

Potassium release characteristics of some soils of Uttar Pradesh hills varying in altitude and their relationship with forms of soil K and clay mineralogy
B.N. Ghosh and R.D. Singh 135

Clay mineral formation in soils of two different chronosequences in the Swiss Alps
M. Egli, A. Mirabella and P. Fitze 145

Book reviews 177

Research papers

Soil organic matter dynamics in density and particle size fractions as revealed by the $^{13}C/^{12}C$ isotopic ratio in a Cerrado's oxisol
R. Roscoe, P. Buurman, E.J. Velthorst and C.A. Vasconcellos 185

Properties of organic matter in soil solution in a German fen area as dependent on land use and depth
K. Kalbitz 203

Paleopedology of Middle Wisconsin/Weichselian paleosols in the Mérida Andes, Venezuela
W.C. Mahaney, S.E. Russell, M.W. Milner, V. Kalm, M. Bezada, R.G.V. Hancock and R.P. Beukens 215

Dynamics of resistant soil carbon of Midwestern agricultural soils measured by naturally occurring ^{14}C abundance
E.A. Paul, H.P. Collins and S.W. Leavitt 239

Design-based regression estimators for spatial means of soil properties: the use of two-phase sampling when the means of the auxiliary variables are unknown
D.J. Brus and W.J.M. Te Riele 257

Thermal resistance to high temperatures of different organic fractions from soils under pine forests
I. Fernandez, A. Cabaneiro and T. Carballas 281

Using ^{137}Cs measurements to quantify soil erosion and redistribution rates for areas under different land use in the Upper Kaleya River basin, southern Zambia
A.L. Collins, D.E. Walling, H.M. Sichingabula and G.J.L. Leeks 299
Stochastic simulation of soil strength/compaction and assessment of corn yield risk using threshold probability patterns
D.R. Lapen, G.C. Topp, H.N. Hayhoe, E.G. Gregorich and W.E. Curnoe 325
